**CDS\_EP – A lexicon of Child Directed Speech for European Portuguese from the FrePoP database (0;11 to 3;04)**  
**CDS\_EP – Um léxico de Discurso Dirigido à Criança para o Português Europeu, a partir da base de dados FrePoP (0;11 a 3;04)**

Funding:

DEPE Project (PTDC/CLE-LIN/108722/2008)

Laboratório de Fonética & Lisbon Baby Lab

Centro de Linguística da Universidade de Lisboa

CDS\_EP was based on a section of the Child Directed Speech materials included in the FrePoP database:

<http://frepop.fl.ul.pt> (see About > The input of FrePoP: List of corpora).

This child directed speech resource was built as part of the supporting documents for the development of the **McArthur Bates Communicative Inventories (CDI) for European Portuguese – Short forms**. The main goal behind CDS\_EP was to provide information on the child input relevant to the developmental course of lexical acquisition. Lexical frequency lists (word forms, not lemmatized) were obtained with the **FreP tool** (Martins, F., M. Vigário & S. Frota. 2011. FreP - Frequency in Portuguese. Version 3.0.).

CDS\_EP contains frequency lists for the following age ranges (organized alphabetically and by frequency rank):

CDS\_0-18 (types: 2714; tokens: 48746)

CDS\_16-30 (types: 5951; tokens: 201871)

CDS\_31-36 (types: 2009; tokens: 23078)

CDS\_37-40 (types: 1558; tokens: 12923)

CDS\_0-40 (types: 7634; tokens: 286618)

CDS\_EP comprises data from eight caregiver-child dyads.
