

# Centro de Linguística

## da Universidade de Lisboa

CLUL is a R&D unit hosted by the School of Arts and Humanities of the University of Lisbon

The Center of Linguistics of the University of Lisbon (CLUL, <https://www.clul.ulisboa.pt/en>) is calling for statements of interest from researchers working in any of CLUL's areas of research (<http://www.clul.ulisboa.pt/en/research>) who fulfil the conditions to apply for a 6-year contract within the scope of the Individual Call to Scientific Employment 2023 (CEEC <https://www.fct.pt/en/financiamento/programas-de-financiamento/emprego-cientifico/emprego-cientifico-individual/>), from the Portuguese Fundação para a Ciência e a Tecnologia (FCT).

CLUL is one of the topmost research units in Portugal, classified as Excellent by FCT. Major research strands within CLUL include: (i) the development of language resources and applications for Portuguese and Portuguese-related languages; (ii) spatial (European and non-European varieties of Portuguese and Portuguese-lexified creoles) and historical language variation; (iii) digital humanities and scholarly editions; (iv) language processing; (v) language acquisition and development; (vi) clinical linguistics; (vii) educational linguistics; (viii) translation; (ix) theoretical linguistics. The CEEC contract will allow researchers to develop their research projects at a competitive and friendly host institution, in a lively European city.

The FCT call accepts submissions from April 4 to May 3, 2023. Candidates who specialize in any of CLUL's areas of research and believe their project may fit in our team's scientific goals can send us an email (to [clul@letras.ulisboa.pt](mailto:clul@letras.ulisboa.pt)) with a short CV, the identification of their project's main area of research and a short abstract of their project. The deadline for receiving statements of interest is **March 31, 2023**.
